

# CALCULATOR CRUNCH

Day 2

Re-order!

Work out the value of these four expressions and order them from the smallest to the largest value.

$$40 \times 8 \div 4 + 40 - 15$$

$$40 \times 4 \div 8 + 40 - 15$$

$$40 + 8 \times 15 - 40 \div 2$$

$$15 \times 4 - 40 \div 8 + 40$$

- Use brackets to change the value of the four expressions
- Can you reverse the order of the four expressions so the one that had the largest value now has the smallest?
- Is there more than one way to do it?
